- Upper Fluid Exchanges
- Analytical And Critical Thinker

## Experience

---

Service Technician Jan 2017 to Jul 2018

Jiffy Lube — Louisville, CO

Daily responsibilities are primarily based on witch position you are assigned for. Once I completed the online computer training I started on the floor as a Upper bay technician. My job was to check and adjust tire pressure to the correct psi, preform a detailed inspection on each vehicle, top off any low under hood fluids such as power steering fluid, transmission fluid ext, adding oil to the vehicle, reinstalling new or old cabin/air filters, starting the vehicle to get oil pressure up to par and finally making sure the oil level on the dipstick is reading full. After that I was shown the other four positions witch were Lower bay tech, curtsy tech, team lead and customer service advisory, 4 months later I was promoted to Floor Manager. My job was to make sure everything on the floor ran efficiently, to maintain daily labor goals and if a issue were to occur its my job to find and salve the problem in a timely matter.

Line Cook Aug 2015 to Mar 2016

freddys steak burgers — longmont , co

Set up and stocking stations with all necessary supplies. Prepare food for service (e.g. chopping vegetables, butchering meat, or preparing sauces) Cook menu items upon customer request.

Service Deli Clerk Sep 2014 to Aug 2015

king soopers — Louisville, CO

I started by slicing meats and cheeses cut to meet the requested thickness by the customer, than learned the hot bar witch consisted of cooking and frying foods to the proper temperature and I also closed those position. I than earned a promotion to Chief and my task was to cook specialty foods such as salmon, meat balls, twice baked potatoes ext I than would refrigerate the foods I made than package the food price it and stalk it on the deli side work floor.
