WORK EXPERIENCE

Air Traffic Control Specialist

MCAS Futenma (ROTM) - 2014-10 - Present

Duties, Accomplishments and Related Skills:

Provided incident free control of Aircraft on ROTM to include: V22, H1's, CH53, C-130, C560/BE350, C-17, and various light civil helicopters.

-Obtained, posted, relayed, and issued various DD-1801 flight plans, clearances, and meteorological data

-Coordinated with U.S. Military and Japanese facilities for point-outs, hand-offs, and other aircraft movement data

-Controlled and deconflicted ground traffic

-Assisted with the instruction and testing of multiple Airfield Driver's License courses and provided and supervised board and virtual simulations for Ground Control and Tower Flight

Data trainees

-Provided ATC services for U.S. Military aircraft in foreign countries including: Japan, Korea, Philippines, and Australia

-Briefed pilots on U.S. Military terminal and radar procedures on Clark Air Base (RPLC)

-Acted as an ATC liaison and resolved issues from language barriers between U.S. Military pilots and South Korean controllers on Pohang Airport (RKTH)

Security Augmentation Force Team Member

United States Marine Corps - MCAS Miramar, CA - 2013-09 - 2014-09

MCAS Miramar, California

San Diego, CA 92145 United States

09/2013 - 09/2014

Hours per week: 16

Security Augmentation Force Team Member

Duties, Accomplishments and Related Skills:

Served as member of Marine Corps Air Station Miramar's Security Augmentation Force (SAF).

As a team member I assisted Military Police with maintaining security aboard MCAS Miramar during air shows, concerts, base events, and heightened base security.

Duties included armed security and control of base entrances and checkpoints, base patrols, and traffic direction.

Received training with M9 Beretta handgun, M1014 shotgun, Oleoresin Capsicum spray, defensive tactics, use of force, and detainee handling.

Air Traffic Control Specialist

United States Marine Corps - San Diego, CA - 2012-12 - 2014-09

Duties, Accomplishments and Related Skills:

Provided safe, orderly, and expeditious control to aircraft on KNKX to include V22, H53, U-H1/AH-1, C-130, CH-53/CH-47, C560/ BE350, F-18 and F5's.

- Controlled and maintained separation on final control with over 400 incident free approaches
- Coordinated for traffic, hand-offs, and point outs with Approach and terminal facilities using STARS and ARTS
- Obtained, input, amended, and delivered clearances, general information, and aircraft movement data via FDIO and ETVS systems
- Collected and updated air traffic control trainee information and statistics using MS Excel and Word
- Provided on-the-job training instruction, mentorship, and simulations for air traffic control trainees
- Assisted in the instruction and testing for multiple Airfield Driver's License courses
