

AUTHORIZATION TO RELEASE INDUSTRIAL HEARING TEST RESULTS

I understand that a successful hearing test is a condition of my employment by Employer Solution Staffing Group, LLC. to work at the facility of Reichel Foods, Inc., and further, that Employer Solutions Staffing Group may, at its discretion, share the results of any such hearing test with Reichel Foods Inc.

I also understand that Employer Solutions Staffing Group may, at its discretion, conduct periodic hearing tests on me during the course of my employment with Employer Solutions Staffing Group and I consent to such tests.

First Name: Bare

Middle Name: Ojulu

Last Name: Gilo

Social Security Number: 621 978217

Date of Birth: 11/1/03

Gender (Circle one): Male Female

My Signature: [Signature]

Today's Date: 7/24/18

Employee Photo Release Form

I, Bare Gilo, agree to let Reichel Foods use my picture for internal security purposes. I also agree to submit a written request to Reichel Foods if/when I wish my photo be removed from the company database.

Employee Signature Name: [Signature]

Date: 7/24/18

Name: Bare Gilo

Achoo!

By Cynthia Sherwood

Achoo! We all sneeze sometimes. Sneezing is a reflex that your body does automatically. That means you cannot make yourself sneeze or stop one once it has started. When you sneeze, your body is trying to get rid of bad things in your nose, such as bacteria. You have extra germs when you have a cold, so you sneeze a lot more. You might also sneeze when you smell pepper!

Inside your nose, there are hundreds of tiny hairs. These hairs filter the air you breathe. Sometimes dust and pollen find their way through these hairs and bother your nasal passages. The nerves in the lining of your nose tell your brain that something is invading your body.

Your brain, lungs, nose, mouth and the muscles of your upper body work together to blow away the invaders with a sneeze. When you sneeze, germs from your nose get blown into the air. Using a tissue or "sneezing into your sleeve" captures most of these germs. It is very important to wash your hands after your sneeze into them, especially during cold and flu season.

Do you ever sneeze when you walk into bright sunlight? Some people say that happens to them often. Scientists believe the UV rays of the sun irritate the nose lining of these people so they sneeze.

If someone nearby sneezes, remember to tell them "Gesundheit!" that is a funny-looking word which is pronounced "gezz-oont-hite." It is the German word that wishes someone good health after sneezing.

1. Why do people sneeze?
 - a. The tiny hairs in your nose tickle
 - b. Your body is trying to get rid of bad things
 - c. You can make yourself sneeze when you want to
2. What are the 3 parts of your body that work together with your upper body to sneeze?
 - a. Hand, Elbow, Shoulder
 - b. Ankle, Knee, Hip
 - c. Brain, Lungs, Mouth
3. What other things can make you sneeze?
 - a. Pepper, Sun, Dust, and Pollen
 - b. Water, Pop, Flowers, Trees
 - c. Salt, Seasonings, Meat, Fruit
4. What is a German word that people often say to someone that sneezes?
 - a. Good Job
 - b. Gesundheit
 - c. Hang in there
5. What should you do after your sneeze into your hands especially during cold and flu season? (This should also be done in the production area!)
 - a. Wipe them with a tissue
 - b. Nothing
 - c. Wash your hands
