

## my concern

I Do all necessary as Gun in plane at Rachel.  
I was treated badly by my line lead every day.  
but I didn't react. I report to my Supervisor  
about my concern that I can't close because my  
side of arm is paint.

- Secondly He used to pull out from where I work  
and put some one he love most even she/he  
come late.

One Friday my line lead pull me out for some  
one and I agreed. again in the second bread  
I go in to where I choose to work and he came  
and pull me out for the same person to work  
for my place and I refuse and he told me  
to go and said to me not to come back to  
work. He doing discrimination because of  
color.
