Report for Management Behavior

- Manager Jeremy

- Would tell me it is my responsibility to cover other peoples shift (primarily Fridays) in order to "put us ahead of schedule", when in fact we would already be 1-2 days ahead of the building schedule.

My schedule is between M-T, 7am - 3pm (1st hr shift)

As a courtesy I would work 5 hrs of Overtime on Friday due to one specific employee (Kevin) always calling off on Fridays.

- Fellow coworker Kevin

- Kevin's schedule has been modified about 2-3 times since the beginning of my employment. He is at times, leaving before his scheduled shift as well as calling off during days he is scheduled to work.
-

- Jeremy behavior Cont.

Tones he uses is condescending towards employees.

Theres a level of forgetfulness that he exhibits which causes issues of ~~stay~~ communications between the manager and the team.

Issues brought to his attention are not met/now attended to in a timely manner

Supervision

Most of our day is unsupervised work.

The team works in the warehouse all day and

Jeremy is in his office for 90% of it.

There may be a truck to load around 4pm

but that is done without Jeremy's presence as he

leaves around 3:30-4pm. There are times the

truck drivers come much later than their

scheduled times but again, he is not there at all.
