SUMMARY

I have 15 years in the oilfields industry with an extensive background and experience in different fields, including exceptional people skills. My experience ranges from drilling, fracking, installing, water transfer, electronic/mechanical maintenance, troubleshooting, repair, diagnostics etc. I desire a challenging role that will allow me to further my oilfield experience

EXPERIENCE

Heavy Forklift Operator

Greeley, CO

Sandbox Logistics/ Feb 2017 to Current

Operated Heavy forklifts such as Kalmar, Taylor, Hyundai to load and unload 45k pound boxes filled with silica sand, strategically stacked on pad and yard

Electronic/Mechanical Technician

Platteville, CO

Calfrac Well Services/ Mar 2012 to Mar 2016

Performed mechanical/electrical repair, diagnostics, function testing on monitoring equipment, instruments and tools vital to keep frack jobs from going down, having issues or that needed repair and/or were on a PM schedule

Shop/Field Electronic & Mechanical Tech

Fort Lupton, CO

Rain for Rent/ Apr 2009 to Jan 2012

Performed maintenance on water pumps, light plants and company trucks out on location or in the shop. Duties include trouble shooting, diagnostics, repair, ordering parts, delivery, PMs

Electronic/Mechanical Technician

Henderson, CO

Schlumberger D&M/ Jan 2005 to Feb 2009

Performed mechanical/electrical repair, diagnostics, function-testing on rotary drilling tools/equipment. Using instruments vital to keep drilling jobs from going down, having issues, that needed repair and/or were on a PM schedule
