WORK EXPERIENCE

Great Degrees Inc., Palatine, IL
HVAC Technician
Aug./2013 – Mar./2014

As an apprentice technician, I participated in many areas of HVAC. With respect to installation, I assisted with installing new furnaces including condensing high efficiency, heat pumps and electric furnaces. I aided in the connection of duct-work electrical, gas piping and venting. I was also responsible for constructing concrete bases outside, mounting outdoor AC condensing units on them, tying line-sets, electrical disconnect box and wiring them to the system. During heating service, I performed tune-ups on forced air furnaces, troubleshot no heat calls, and did maintenance on humidifiers. With respect to air conditioning service, I performed maintenance on condensing units, indoor and outdoor leak detection, recovered refrigerant when necessary, recharged systems, and changed failed electrical components.

Gate Gourmet, (Gate Serve), Franklin Park, IL
Ramp Agent, O'Hare Airport
Oct./2011 – July/2013

My principal duties included: catering of aircraft on airfield, driving catering truck or single occupant vehicle to aircraft, following all approach and exit procedures, swapping carts from aircraft, and pulling various food and paper goods from truck to fill flight commissary request. My proficiency afforded me the task of training others and filling in at other positions when needed. A strong emphasis was placed on organization and time management in order to accurately cater while meeting departure deadlines. A strong emphasis was placed on safety, organization, and time management in order to accurately cater while meeting departure deadlines.

Jason Hink Distributing, Dupage County, IL
Independent Distributor of Mckee Foods
Feb./2008 – Sept./2011

My responsibilities included: purchasing baked goods from wholesaler and then reselling them to various retailers within a given territory, constructing displays within retailers to gain additional sales, record keeping, writing daily invoices to customers, writing weekly product order from supplier. These actions were performed with a continuous philosophy of developing new accounts and maintaining rapport with store managers in order to grow sales.

Concentric Inc., Itasca, IL
Assembler/Final Audit Inspector
Mar./2002 - Feb./ 2008

I started in assembly, running a semi-automated cell producing John Deere water pumps and timing gear covers for diesel applications. Later I was promoted to Final Audit Inspector where my primary duties consisted of: inspecting finished product coming out of all assembly cells, using various gauges and measuring equipment to ensure that all automotive and diesel pumps were made to proper specifications, inspecting the first run of parts whenever fixtures within an assembly cell were changed, issuing corrective action forms when non-conforming product was found, and recording all inspection results in a spreadsheet log. I also served on the company Safety Committee.
