To infuse my knowledge and experience in helping the company reach goals and achievements in a timely manner. I would adhere to company policies and guidelines in the process of asserting my experience and knowledge in providing the best possible service for clients and customers. To maintain leadership and morale among my peers and associates for creating the best safe and quality service for ours customers.

## WORK EXPERIENCE

### **Manufacturing/Petroleum Associate**

Terumo BCT/Rocky Mountain Oil

Manager and Supervisor Experience 10 years

Manufacturing and Petroleum Experience 20 years

I have customer service experience in manufacturing and petroleum. I have knowledge in FDA rules and regulation. I helped Rocky Mountain Oil attain ISO Certification at a 93% approval rating. I am currently working with Terumo BCT and would like to bring my experience and knowledge to a great company that believes in change and success for their business.

## EDUCATION

### **High School Diploma**

Metro State College - Denver, CO

## SKILLS

Cleanroom,SOP'S,MOP'S and GMP Certified, Management, Inventory, Customer Service

## ADDITIONAL INFORMATION

### Qualifications

I currently work for Terumo BCT in Lakewood, Co. where I manufactured and test disposable blood transfusion units. I have been employed at Terumo for ten years, my duties include random safety test on product for quality and conformance to requirements. I have clean room experience in SOP'S, MOP'S AND GMP'S along with setup and calibration of equipment. My previous experience is in Petroleum. I worked for Rocky Mountain Oil Co. in Henderson, Co. for ten years as a bulk petroleum manager. I managed and coordinated bulk and package deliveries for this state of the art facility in Hendersen. I handled all incoming bulk oil from Galena Park, Texas via railcar and truck. Did all viscosity blends for all intermediate product for this Texaco and Shell facility. I have forklift trainer certification experience and safety quality knowledge. I handled over 800,000 gallons of bulk product for this facility in house and have a great safety record.
