Objective

Seeking long term employment in an organization where I can grow professionally and further enhance my skills, knowledge and experience to face and overcome the challenges of today's changing work environment.

Work experience

Colo-Pac Produce Inc.

April 2012 — June 2013

Warehouse

I mainly worked with fresh produce. I unpacked fresh produce, made sure it was ok, then I repacked and loaded onto docked truck. I drove manual and electric pallet jacks, pulling pallets of produce from the Refrigerators and freezers. I used a forklift to lift pallets of produce onto other pallets and to pull produce from docked trucks. I smashed boxes in a bailer then moved them with a pallet jack into a neat stack. I made specific labels and put those labels on specific boxes. I loaded and unloaded docked trucks.

Had to leave this job because my transportation couldn't take me anymore.

Big Lots

Sept. 2013 — Dec 2013

Stocker

I made sure all the shelves/store was cleaned. I stocked and restocked items in different aisles. I helped customers with any questions they had and helped them around the store.

I made minimum wage here and left for a better opportunity.

Heli-Pile

Mar 2014 — Oct. 2014

Line Worker

I worked in a steel warehouse doing different functions such as cutting, bending, and punching steel. I drove a forklift which I got certified by the company. I also drove electric pallet jacks to move products.

I started going to school at Pima Medical Institute while working here and my school hours got in the way of my job hours so I had to leave to find a part-time job.

FedEx Ground

Nov 2014 — Jan. 2015

Package Handler

I loaded and unloaded the FedEx trucks. I use an RF scanner to scan incoming packages.

This was a part-time job and I thought I could maintain my bills and school payments while going to school and working part-time but I wasn't making enough hours and my bills caught up to me and I had to drop out of school and get another full-time job.

Safeway Distribution Center

Jan 2015 — Present

Order Selector

I pull order from a headset on a double electric pallet jack.
I pull the order as fast and efficient as I can with minimal mistakes.
I have a quota of 250 cases per hour and must maintain at least a weekly percentage of 100%

Qualifications

I know all basic warehouse knowledge and PPE knowledge.
Most of my experience is working in a warehouse.
Toyota Class 3 Electric Pallet jack certified.
Forklift Certified.

Education

Westminster High School	Aug 2011 — Jan 2013
Got my G.E.D so I didn't finish school.	
FrontRange Community College	Jan 2013 — Jan 2013
Received my G.E.D Jan of 2013
