I've worked for Wanco Inc. for eight years. Wanco's a manufacturing company. I worked as a lead/supervisor for the powder coating department for six years. I've also worked in Wanco's inventory department keeping track and ordering of all raw materials.

Some of the things I used to do at Wanco was:

- overseen a 10-15 man crew
- report production using inventory software (pcmrp)
- created spread sheets for production using excel and word
- cycle counted inventory weekly & update inventory system
- I would pull parts with both gas and electric forklift also pallet jack
- I powder coated my first year there.
- I did a lot of preventive maintenance on all shop equipment including forklifts.
- I also worked in the shipping department on weekends loading and stacking trailers.

These are just a few things I did at my last job. All in all I'm a very highly motivated hard worker looking for new challenges everyday.

WORK EXPERIENCE

Powder coating asst lead

Mile high powder coating - Englewood, CO - June 2014 to Present

CNC Operator

Advanced Circuits - Aurora, CO - January 2014 to Present

- *report daily production
- *reading CAM blueprints and making small corrections as needed to First article panels

Skills Used

- *reading CAM blueprints
- *computer programs
- *Writing
- *tracking production using barcode system
- *forklift

Powder coating Supervisor

Wanco Inc. - Arvada, CO - April 2005 to June 2013

When I first started with Wanco's paint department it was a small size batch system in the process of increasing production by adding an automated system. I was the first to manage and operate the system and with trail and error. Over the years I've won severel awards from Metro waste water for following all rules and regulations set forth by the state and city for proper disposal. I also helped management write processes and procedures for how to run and operate the automated system. I've also created many excel spread sheets to track and better report production.

All in all over the years I feel like I accomplished a lot at Wanco more then I can put in words. I honestly think over the years I never hit a plateau at Wanco, I feel as if every year we (manager and myself) found new way to help better production.

EDUCATION

Arvada West High School - Arvada, CO
2002 to 2005

SKILLS
