WORK EXPERIENCE

Quality Assurance Tech.

Juno - Anoka, MN - February 2011 to November 2013

Responsibilities

I collected samples every 2 hours and checked them for defects and measured them to print specifications. During free time i did capability studies and first articles on sample parts. I also helped operators with questions they had about aesthetic issues. I went through boxes of final products and checked for any defects. If they had none i stamped off on them. If defects were present i wrote up a non conformance on the product.

Accomplishments

I had a great impact on all employees. They all came to me with questions. I was the go to person. I have great knowledge of quality work. I learn very quickly.

Skills Used

I have great skills with all kinds of measuring equipment. I have great math skills. I learn quickly. I have good skills in recognizing and finding defects.

Quality Assurance Inspector

Entegris - Chaska, MN - June 1983 to August 2001
