PROFILE

I was born and raised in Minnesota. I have always had a passion for design, art, and photography. I am fascinated by it, in fact I am either behind a camera or in Photoshop daily. My strengths are; a strong sense of design, an insatiable thirst to learn everything new about design, effectual communication, and the ability to visually conceptualize abstract ideas. I am excited for your interest in me and to continue my career with you. I look forward to creating new things that weren't there before.
