Huntsville, AL
cmwhite90@gmail.com - (256) 224-2614

A CNC machining or industrial manufacturing position where my logical thinking mind can add to your business.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

WORK EXPERIENCE

Machinist

Parker Hanifin - Huntsville, AL - March 2014 to March 2015

Plan machining by studying work orders, blueprints, engineering plans, materials, specifications, orthographic drawings, reference planes, locations of surfaces, and machining parameters; interpreting geometric dimensions and tolerances (GD&T). * Plan stock inventory by checking stock to determine amount available; anticipating needed stock; placing and expediting orders for stock; verifying receipt of stock. * Program mills and lathes by entering instructions, including zero and reference points; setting tool registers, offsets, compensation, and conditional switches; calculate requirements, using basic math, geometry, and trigonometry; proving part programs. * Sets-up mills and lathes by installing and adjusting three- and four-jaw chucks, tools, attachments, collets, bushings, cams, gears, stops, and stock pushers; indicating vices; trammings heads. * Load feed mechanism by lifting stock into position. * Verify settings by measuring positions, first-run part, and sample work pieces; adhering to international standards. * Maintaining specifications by observing drilling, grooving, and cutting, including turning, facing, knurling and thread chasing operations; taking measurements; detecting malfunctions; troubleshooting processes; adjusting and reprogramming controls; sharpening and replacing worn tools; adhere to quality assurance procedures and processes. * Maintain safe operations by adhering to safety procedures and regulations. * Maintain equipment by completing preventive maintenance requirements; following manufacturer's instructions; troubleshooting malfunctions; calling for repairs. * Maintains continuity among work shifts by documenting and communicating actions, irregularities, and continuing needs. * Documents actions by completing production and quality logs. * Updates job knowledge by participating in educational opportunities; reading technical publications. *
