WORK EXPERIENCE

CNC Machinist

System Seals Inc - Houston, TX - November 2013 to July 2015

Responsibilities

Set up and run CNC lathes to machine plastic and rubber parts. Hold parts to tight tolerances. Edit programs as needed. Read blueprints and work orders. Inspect parts. Split or notch if needed using various hand tools.

Accomplishments

I have learned quiet a bit of basic programming in this position.

CNC Machinist

Resource MFG - Houston, TX - June 2010 to September 2013

Responsibilities

Set up and run CNC mills and lathes. Machine parts to strict tolerances. Follow work orders and blue prints.

Accomplishments

This was a temporary position. I was brought in to help catch up on a large project. With My help, we caught up sooner than expected.

CNC Machinist

SKF USA - Houston, TX - October 2012 to May 2013

Responsibilities

Set up and run CNC lathes. Machine seals from various plastics and rubbers, holding tight tolerances. Edit programs as needed. Inspect parts, per drawings or blueprints.

CNC Machinist

Personnel Management Group - Joliett, Il - June 2012 to August 2012

Set up and run Accubore boring machine. Read blue prints. Make edits to program as needed. Adjust or change lap bars as needed. Inspect parts using air.

CNC Machinist

Compressor Products International - April 2011 to March 2012

Read drawings, set up and run CNC lathes. Finish parts using table saw. Inspect parts using various measuring tools. Insure compliance to strict tolerances.

lathe operator

Cook Compression - Stafford, TX - September 2010 to April 2011

Machine operator

Set up and run manual lathes. Inspect parts.

Fabrication Operator III

B.A.E. Systems - June 2005 to February 2010

Read prints, set up and run CNC mills, manual mills, drill presses and various other machines. Inspect parts to insure compliance to strict tolerances. Train others to do the above.

EDUCATION

Alvin Community College - Alvin, TX
