WORK EXPERIENCE

LaserTube Lt8 Operator

Metal Componets - Kentwood, MI - May 2015 to Present

Responsibilities

Everday as a Lasertube Operator my job requires me to have to review all part requirements,setup machine retrieve parts from dock using Crane lift. Place parts on table next to machine load each part according to its requirement sheet. Once parts are in place begin loading and running parts one by one. Retrieve parts as they eject from unloader ,remove loose Increment on each part. If necessary grind then measure using a depth gage (depending on particular part). Place each part on rack or pallet and repeat while making sure lazer operates accordingly. Afterwards racks are pushed into inventory area and arranged shipping and tag all parts with inspection tags that includes part numbers. As for pallets, they are picked up by hilo and sent to shipping.

Accomplishments

Furthering my own expectations of being a ideal employee while showing my employer that I am dependable and responsible for production on my particular machine.

Plating Cell Leader

Electro Chemical Finishing - Wyoming, MI - August 2013 to March 2015

Each day as a Plating Cell Leader, my job entitled me to have to dress appropriately and be on time for work and any meetings that are taking place upon such day.

My job description basically is to make sure that every plater is in their correct positions.

Two employee's present on the Plater two employee's working the Stripper and two employee's working the Pre-Plater.

Record all racks going in the plater & coming out. Keep record of all necessary tank temperatures and make sure that certain tanks receive certain chemicals that are required for the perfect finish of all parts that need to be pulled.

My job as a Cell Leader requires me to train new employees on basic lifting & machine operating.

If necessary even fill any positions for any employee that has called in or position that has yet be filled.

I work hand and hand with my supervisor on a regular and make sure that while he is absent, busy or on his break everything runs according to planned..
