## PROFESSIONAL SUMMARY

An employee with dedication and resolve. I do not ever intend to start a project and leave it unfinished. I am dedicated to my family, friends and co-workers. I often try to finish projects ahead of time, on budget and without cutting corners.

As a service technician with more than 8 years of experience planning, developing and implementing installations and repairs of construction heaters.

- Training and Development
- Forklift and Self Propelled Safety Certificate (exp. 9/16/17)

## EXPERIENCE

06/2007 to Current

Service Manager

CHI Companies - Denver, CO

There are many hats I am required to wear that I take pride in.

For me, my desire to show positive production numbers.

I take into account core values a company shares with their employees and help to strengthen morale in my co-workers.

With effective problem solving and trouble shooting skills I can find, fix, and repair most problems. A word that is described in the dictionary as troubleshoot, a systematic search for the source of a problem so that it can be solved, or the way I describe it as the conversions of unknowns to knowns in the shortest amount of steps. I have long believed that in order to gain respect you must give respect reminding co-workers that they are valuable and instilling self worth.

Exceptional with a variety hand and power tools including multi meters, pressure gauges, water manometer, CO/CO2/RH and thermometers, combustion analyzers, soot detectors, wrenches, rivet guns, fasteners, electrical connectors ect...

OSHA 10 Focus Four Electrocutation Hazards V6

Records and maintenance of fleet vehicles. DOT inspections, daily inspections, driver logs (HOS). Scheduling to avoid log conflicts and violations. Track and save employees logs in order to comply with regulations.

Extensive practice and experience painting deep base enamel paint. Thinning and drying compounds. adhesive and sticker labeling, stenciling and equipment identification.

Organizing: Providing rental equipment, employees, vehicles, trailers, fittings, directions for the day including pre planning maps, contact information and layout / blueprints.

Purchasing: Equipment, tools, paint, parts, and required items needed for us to preform our duties.

Implementation of Tool tracking protocol's to prevent theft.

12/2001 to 05/2007

Driver / Coordinator / Mechanic

M-N & S Sweeping and Power Washing - Sherman, TX

This was a very unique line of work. Transportation and removal of debris from

streets and roadways including parking lots.  
Travel included multiple stops at many customers buildings and providing maintenance to grounds including pressure washing walkways, walls and signs.  
Providing overnight cleanups so as they could provide a clean comfortable shopping experience for their customers.  
And landscaping for a full exterior cleanup process.
