## Electrician Apprentice - Malco Communications

Antioch, IL

albertkurth@gmail.com - 847-890-1059

Candidate with proven experience in properly maintaining and conducting safe, cost effective repairs to plumbing, electrical, and HVAC systems in both commercial and residential properties seeking to work as a building engineer.

### WORK EXPERIENCE

#### Electrician Apprentice

Malco Communications - Skokie, IL - March 2014 to Present

Responsible for assisting journeymen with all aspects of various projects within the Chicagoland area. Notable project locations include Ravinia, Fox Valley Mall and Westfield Hawthorn Mall.

- Low voltage installations such as D.A.S wireless phone systems, fire alarms, door security systems and security cameras as well as removal and demolition of the same.
- Trained in conducting Anritzu PIM and Line Sweep testing.
- Completed the electrical apprenticeship training class through the Local IBEW 134

#### Owner/Operator

Detailed Construction - Antioch, IL - June 2007 to Present

Responsible for all aspects of operation of a general contracting company specializing in painting, electrical, plumbing, carpentry, home repair and remodeling.

- Coordinated sales and marketing efforts to increase business.
- Estimate all costs related to a project as requested by clients. Prepare and submit bids and proposals for the work to be completed. Follow up on proposals in a timely manner.
- Acquisition of all required tools and equipment required for completion of current projects. Seek competitive pricing on required material to ensure projects stay within budget without any loss in quality of work.
- Recruit additional labor and/or subcontractors as needed.
- Ensure all work adheres to local and state codes and regulations and is performed safely.

#### Building Engineer

Blue Star Properties - Chicago, IL - 2011 to 2013

Worked as part of a team responsible for maintaining several busy Chicago high rise buildings.

- Conduct inspections of and perform proper maintenance and repair of the buildings' plumbing and electrical systems.
- Troubleshoot reported issues in tenant spaces and use problem solving skills to determine the best solution based on cost effectiveness, safety, and building codes.
- Repair/install drywall and paint as necessary to update or repair spaces for both new and existing tenants.
- Replace damaged or deteriorated flooring both in common areas and tenant space.
- Some commercial HVAC, roof repair, and minor automotive maintenance and repair.
- Maintain building equipment and tools to ensure efficient operation and cost savings.

#### Building Maintenance Technician

Centre Club - Gurnee, IL - October 2003 to July 2008

Perform general maintenance and repair throughout the property.

- Ensure all equipment in the onsite fitness center is well maintained and in proper working order.
- Recognize and address issues and concerns in a timely manner to prevent the need for costly repairs in the future.

## EDUCATION

### **MA in Criminal Justice Introductory Coursework**

College of Lake County - McHenry, IL

February 2009

## ADDITIONAL INFORMATION

- Comprehensive knowledge of building operations, preventative maintenance, repair, and remodeling
- In-depth knowledge of the tools, techniques, and materials of the trade.
- General ability to read blueprints and schematics.
- Strong ability to multitask and efficiently manage multiple projects at the same time
- Able to recognize, assess, and quickly troubleshoot issues to avoid costly future repairs.
- Possess strong leadership and sound judgment skills.
- Ability to interact/work well with tenants, professional staff, vendors, subcontractors, laborers, craft persons and other workers.
