I have almost five years of experience managing all shipping, fulfillment, and customer service in a warehouse and retail setting for Boulder resellers of a full spectrum of consumer and commercial goods. I managed all incoming and outgoing packages, using computer programs for the inventory and shipments. I am extremely detailed-oriented, neat, and work hard to keep accurate records. I am also proficient using and fixing computers, having built my own PC as a hobby.

I am looking at a career in the Electricians field, Automotive Technology, Home Automation / Large Facilities Automation, Low Voltage installation, Home Theater / Commercial Audio Video design and installation, Automobile Customization, and the Electronic Entertainment industry.
