Summary

I am a passionate Catholic searching for an opportunity to lead others to Christ through theology, teaching, and photography.

I would love to work with a photographer to improve my skills and to be able to serve clients with better photographs.

I would love the opportunity to go back working in Hospital Administrative work. I enjoy working with the people and serving them in their medical needs. I also am willing to get my Master's in a form of Hospital Administration if needed for the job.
