

Boon Yang

Candidate: Quality Auditor

Phone# 651-964-9048

Email:sonnyboon0008@live.com

Education

University of Minnesota 2003-2008
Pre-requisite for dental school admission

Ausburg College 1995-1998
Bachelor of Arts in Biology

Relevant Experience

Cardinal Health 3/26/2013-3/15/ 2014
Quality Inspector

- Inspect incoming raw materials
- Documentation of 1st Article Inspections
- Perform lab testing on final products
- Maintain and review documentations
- Monitor the manufacture floor to ensure quality products
- Perform quality checks on production floor stations
- Perform investigation on customer complaints
- Write out and review NCMR and DCR reports
- Collect data and analyze data to generated reports for meetings
- Work with Manager and Engineering on any revise procedures

Diasorin, Inc 12/2012-2/2013

Laboratory Tech (Successful Aerotek Assignment)

- Handled and transferred a variety of chemicals in a clean room environment
- Performed extensive documentation both on paper and in the computer
- Worked off of work instructions daily
- Setting up machinery per work instructions
- Perform cyclic count and maintain inventory

Consumer Precision Product *January 2008-March 2009*
Quality Inspector

- Inspected Incoming components using hand gauges, micrometers
- Operate the Spectro-chemical Metal Analyzer Spectrometer
- Operate the Spectro-chemical Metal Analyzer Angstrom
- Perform specific chemical test for aviation casting parts
- Maintain proper documentation final samples of castings
- Insure and approve quality of casting
- Resolve problem and improve with melt teams

- Laid off due to economical strain

Gyrus ACMI

April 2007-September 2007

Quality Control Inspector (*Aerotek Contract*)

- Inspected medical device units using smart scope and complex machines
- Operate CMM Machines
- Maintain and release incoming materials
- Test surgical scopes, hand instruments, camera heads, and various
- Complexity surgical instrumental units,CMM,Height gauges,micrometers
- Maintained data file for FDA Audits
- Operate Oricle and Chess receiving software

TIRO Industries, LLC

December 1999-March 2005

Quality Engineering & Quality Control Specialist

- Operate on CMM machine
- Inspected Incoming components and finish goods using GMP
- Test client samples per TIRO SOP for components
- Tested Shampoo, hair sprays, conditioners stability samples
- Resolve customer complaints and perform investigations
- Sampled and test raw materials using GMP Procedures
- Documentation and maintain records for storage
- Trained in new employees, review, & signed off Certificate of Analysis
- Work in Lab testing chemical components
- Microbiology testing via plating
- Testing viscosity, pH, titration and others
- Use various lab instruments and gages: micrometers, calipers, etc.
- Inspect and audit production lines
- Company filed for bankruptcy and I was laid off, offered a position but was unable to relocate my family

CIMA Labs

March 1999-August 1999

Quality Control (Contract)

- Testing medicine tablets (Hardness tester)
- Performed Solubility tests, sorting, weighing
- Audit production lines and test samples using HPLC
- Sample raw materials and chemicals
- Preparation of laboratory reagents and standard solutions
- Sterilized & polishing Lab instruments
- Record and test stability samples
- Calibrate Laboratory instruments
- Maintain and test stability samples
