## OBJECTIVE

To obtain a position with a well-established organization that will lead to a lasting relationship in the field of Distribution and Logistic. Utilize my background and skills to the fullest to achieve the organization's goals by identifying and implementing continuous improvements in the distribution chain development.

## EXPERIENCE

JUNE 2002 - OCTOBER 2014      **Linde Gas LTD**      *Cataño, PR*

### DISTRIBUTION AND LOGISTIC MANAGER

- Responsible for heavy bulk, industrial and health care cylinder truck drivers, fleet maintenance and PM.
- Manage long and short term projects. Negotiate union grievances.
- Plan and coordinate the distribution of hazardous and health care goods, supply chain coordinator.
- Responsible for all warehouse operations and inventory as well as warehouse house keeping.
- Develop distribution strategies to improve distribution process accordingly with project's budget.
- Keep up to date with company policies and procedures as well as local regulations.
- Seek and negotiate with third parties contractors to improve Distribution costs.
- Maintain product and materials inventory at warehouse. Inventory count.
- Plan and coordinate hazardous materials exportation to Canada, US and US Virgin Islands.

### ACHIEVEMENTS

- Reduced distribution costs by 30% through route efficiency, reorganization and focus on customer zones.
- Implemented distribution planning software for scheduling maximization saving over \$200k annually.
- Eliminated wastes from distribution channel through excess vehicles and excess headcounts.
- Improved customer service levels from 70-95% through customer focus and productivity improvements (focused work direction, daily planning and communication).
- Installed drive cam system to provide effective on road coaching and behavioral modifications. This is the first and only camera system for drivers installed in PR.

DECEMBER 1996 - JUNE 2000      **Shell Company LTD**      *Cataño, PR*

### OPERATION PLANT SUPERVISOR

- Supervised and coordinated activities of workers engaged in loading petroleum products such as oils, diesel, jet fuel and gasoline into tank trucks and scheduled delivery of products to retail service stations and distributors.
- Plan and coordinate vessel to plant and plant to plant product transfers.
