### WORK EXPERIENCE

#### Machine Operator

QS, Kodak Alaris - Windsor, CO - October 1996 to April 2014

Inspector/Quality Control

- Escalate and follow through on safety concerns.
- Safety number one priority always on the lookout for incidents.
- Inspect, test, or measure materials, products, installations, or work for conformance to specifications.
- Measure dimensions of products to verify conformance to specifications, using measuring instruments such as rulers, calipers.
- Read data, manuals, or other materials to determine specifications, inspection and testing procedures, adjustment methods, certification processes, or measuring instruments required.
- Record inspection or test data, quantities inspected.
- Mark items with details such as grade or acceptance-rejection status.
- Notify supervisors or other personnel of production problems.
- Discard or reject products, materials, or equipment not meeting specifications.
- Collect or select samples for testing or for use as models.
- Input into computer inspection reports describing results, recommendations, or needed repairs.
- Compare colors, textures, or grades of products or materials with color charts, or samples to verify conformance to standards
- I'm self-initiated proactive
- I am team player and teamwork to me is a winning goal.
