

Derrick Collins

Quality Control Inspector

Spring, TX
Mr.Collinsd@hotmail.com - 713-962-9635

To obtain a position with an established company, that has opportunity for growth and advancement, appropriate for my skills and qualifications.

WORK EXPERIENCE

Quality Control Inspector

Lincoln Manufacturing - Magnolia, TX - June 2014 to Present

Responsibilities

Validate pipe specifications to assure equivalence to customer specifications by utilizing gauges (i.e. dial caliper, lead gauge, and thread height gauges)
Create molds of thread to validate thread form and thread height with utilization of overlays on a comparator
Validate pipe damage/defects free from whiskers, black threads, flat threads
Maintain production per company standards
Validate & read blueprints for accuracy with manufacturing parts
Maintain a clean/safe work environment while wearing proper PPE per OSHA standards
Maintain documentation of correct/incorrect parts fabricated
Orient/train new employees

Skills Used

Creating molds for threads on structural pipe by validating/verifying measurements such as height, length, taper, OD, ID, with utilization of the appropriate gauges.
