October 1, 2014

Dear Sir / Madam:

I have known Pat Ryan ("Pat") for approximately one (1) year. Pat was the second shift line lead for the Machine Shop. As a line lead, Pat's responsibilities included but were not limited to: communication with Machine Shop first shift line lead to discuss issues and priorities (insure smooth transition from first to second shift), moving employees to jobs based upon priorities, training of new employees on the second shift, set up fixtures, inspected parts per control plans and reviewed efficiency and scrap reports and discussed low efficiencies / scrap with employees, Pat was also a member of the Safety Committee. In summary, Pat was a hard working, responsible employee who made contributions to the Machine Shop.

Sincerely,
COMPX-FORT
