WORK EXPERIENCE

TERUMO BCT - Lakewood, CO - November 2014 to Present

I have to smock up and in a clean zone. I must make sure that each piece of the component is up to FDA Specifications.

Warehouse/Order filler and cutter

Laird Plastics - Denver, CO - December 2013 to Present

Shipping, receiving, and cutter. I work on a forklift. All orders must be cut to a certain specification, and must be shipped out on a schedule.

Owner

Plasticrafts Ltd - September 2001 to Present

2115 South Newton Street

Denver, CO 80219

I'm a business owner. I'm willing to work on various projects items such as manufacturing fabrication, assembly line, and production of many items. My specifics include repetitive work in one area, open to almost any type of production or fabrication. I'm willing to work on various projects items. Fabricate and manufactures plastic products for various companies. I work with many machines and tools. I read blue prints and details of each job. I maintain records for taxes, accounting and business records.

TERUMO BCT - Lakewood, CO - June 2013 to November 2013

80215

Phone:(303) 232-6800

I assemble blood components. I must make sure that each component has all of the components. I must comply with FDA Standards. I wear a smock and be a clean zone.

Sabic Polymershapes Plastics - Denver, CO - 2009 to 2012

80216

(303) 744-3700

Warehouse shipping and receiving/cutter. Pulled orders for customers to have ready for pickup, cut materials for orders. Received trucks of material coming in for stock, entering material into computer and put away the material. I must package material for UPS/FedExx or palletize for shipping. I'm trained to a forklift driver both sit down and stand up.

Fabrication Lead

Cadillac Plastics - Denver, CO - October 1990 to September 2001

I did facrication of plastics items, I'm able to read blueprints come up with prototypes and set ups. Also did warehouse work, driving forklifts and cutting material. This company fabricates plastic items and molds from start to finish. Assembly is required by a team of workers. We manufacture thousand of items a month. I work with many tools, machine, and heavy equipment. There is a finishing process to fine polish buff, and perfect

the item to complete perfection. The company has a high standard to complete the project. I adhere to OSHA policies. My work has to be at a high standard of the consumer or customers that purchase. I was a certified fork lift operator and power jack operator.
