SUMMARY

Safety-conscious operator with 10+ years of extensive experience operating large-scale equipment, with an additional 5+ years of welding knowledge.

EDUCATION

High School Diploma | Ramona High School Ramona, CA

1984 – 1988

EXPERIENCE

Equipment Operator | A1 Organics Eaton, CO

APRIL 2018 – AUGUST 2019

- Properly position deflector bars, gates, chutes, or spouts to divert flow of materials from one conveyor onto another conveyor. Manipulate controls, levers, and valves to start pumps, auxiliary equipment, or conveyors, and to adjust equipment positions, speeds, timing, and material flows to optimize output. Oversaw conveyor operations and monitor lights, dials, and gauges, in order to maintain specified operating levels and to detect equipment malfunctions.
- Record production data such as weights, types, quantities, and storage locations of materials, as well as equipment performance problems and downtime into daily reports.
- Performed daily safety and operability inspections and promptly Informed supervisors of equipment malfunctions that need to be addressed.
- Operated heavy equipment in compliance with safety policies and procedures to load material into hoppers to feed production equipment, as well as load out finished material into trucks for transport.
- Utilized fabricating and welding skills in making repairs to equipment on site.

Equipment Operator | Bestway Concrete Firestone, CO

SEPTEMBER 2017 – MARCH 2018

- Weighed or measured materials and products, using scales or other measuring instruments, or read scales on conveyors that continually weigh products, in order to verify specified tonnages and prevent overloads.
- Manipulate controls, levers, and valves to start pumps, auxiliary equipment, or conveyors, and to adjust equipment positions, speeds, timing, and material flows.
- Record production data such as weights, types, quantities, and storage locations of materials, as well as equipment performance problems and downtime.

- Observe conveyor operations and monitor lights, dials, and gauges, in order to maintain specified operating levels and to detect equipment malfunctions.
- Use torch and welding skills to make repairs to equipment as needed.

Equipment Operator | Specialty Metals Englewood, CO

MARCH 2015 – SEPTEMBER 2017

- Load materials into hoppers or feeders for various production equipment.
- Clean out bunkers of processed material using front end loader.
- Weigh or measure materials and products, using scales or other measuring instruments, or read scales on conveyors that continually weigh products, in order to verify specified tonnages and prevent overloads.
- Record production data such as weights, types, quantities, and storage locations of materials, as well as equipment performance problems and downtime.
- Inform supervisors of equipment malfunctions that need to be addressed then assist in making repairs often using fabrication and welding methods.

SKILLS

- Forklift Certified - 2017
- ARC, MIG & TIG experience
- Oxy acetylene torch experience
- Loader, Dozer & Haul Truck driving skills
- MSHA Safety Certified - 2018
