Read work orders or receive oral instructions to determine work assignments or material or equipment needs.

Move freight, stock, or other materials to and from storage or production areas, loading docks, delivery vehicles, ships, or containers, by hand or using trucks, tractors, or other equipment.

Sort cargo before loading and unloading.

Carry needed tools or supplies from storage or trucks and return them after use.

Record numbers of units handled or moved, using daily production sheets or work tickets.

I assisted truck drivers with their foodservice delivery duties. In addition to listed duties, I often navigated routes for drivers that were unfamiliar with certain delivery areas, and 'walked them through' procedures for each restaurant, as each delivery drop is unique.

Left company due to both personal difficulties and because I was moving soon.
