## Work Experience

---

### **Custodian**

own boss - Boulder, CO

June 2005 to Present

I clean an apartment complex that is located around downtown Boulder. My responsibilities include mopping the floors, scrubbing the walls to remove scuff marks, cleaning the front entrance doors that are glass, vacuuming the carpeted areas, cleaning the laundry room located in the basement, emptying the trash chute, and maintaining a clean appearance from the outside.

### **Factory Worker/Machine Operator**

Medtronic - Boulder, CO

August 2019 to December 2019

My official title was "medical device assembler 1" which meant I was on the line most of the time. Occasionally I would help out at different stations of the assembly line when help was needed. Since I was only there for a short while I don't have many accomplishments other than my coworkers and superiors praise for my strong work ethic.

### **Parts Driver**

Fisher Honda & Acura - Boulder, CO

January 2018 to December 2018

I would locate specific car parts in the stockroom and load up the van/truck with said parts then deliver them to the location of the buyer which would typically be an auto-shop or another dealership.

### **Courier Driver**

Action Stat Logistics - Boulder, CO

September 2016 to February 2018

I would pickup/deliver medical supplies and various specimens from hospitals and clinics. I would also help out with miscellaneous tasks around the office like refill the dry ice cooler, flatten boxes for recycling, lockup the office at the end of the night, and check my coworker's personal coolers to make sure no one forgot to deliver something. Within a year and a half I managed to earn two raises due to my work ethic and my ability to adapt to any position/route I was given.

## Education

---

### **High school or equivalent**

Peak To Peak Charter School

## Skills

---

- Business Management (Less than 1 year)
- Business Management (Less than 1 year)
- Custodial
