(603) 520-3127

To serve in a professional position which will utilize my ability to think critically and my aptitude for problem solving in a creative and effective manner

Work Experience

Manufacturing Technician

Efi Inkjet Solutions

May 2010 to May 2015

- Build and Test Super-wide format printers, using precision laser alignment
- Trained staff to use laser alignment systems
- Instructed field engineers on how to initialize critical alignments

Quality Inspector

Efi Inkjet Solutions

May 2005 to May 2010

May 2015 - October 2017

- Conducts inspections for first article, in-coming parts, and completed printers.
- Investigates production part, process problems and document findings
- Initiates Non-Conformance reports (Discrepant Material Reports) as required
- Reads and interpret specifications and part prints.
- Performs accurate mechanical, physical and visual inspection of raw materials, components, and sub-assemblies as per Inspection Plans and Specification Requirements
- Proficient with various measuring devices/equipment such as vernier's, height gauges, hardness testers, micrometers, digital volt meter, and lasers
- Works with other company personnel to resolve inspection questions. Communicate with project engineers to ensure inspection criteria are in compliance with the final product.
- Maintains incoming inspection material history records.
- Ensures calibration and maintenance is performed on inspection equipment.
- Conducts various tests and quality checks on finished products (final inspection). Insure that all products have been tested and fall within standards, measured to specifications and within tolerances, etc.
- Follows all 5S, clean-up and housekeeping procedures. Complies with all quality, safety, and work rules and regulations.
- Performs any miscellaneous duties that are assigned by the Quality Assurance Supervisor
