## Professional Summary

---

I have been in the autobody collision field for the last 20 yrs of my life .I have experience on cars trucks ,semis and rvs and motorcycles.Welding cutting sanding blocking from replacing roofs to qtr panels rad supports front end rear body panels ect.I have also done warehouse work ,delivery and construction. I'm very mechanically inclined .Ideally I'd like to find a new career in hvac plumbing or electrical, but open to others .I really enjoy learning and think I would be great at a new trade .I'm a hard worker honest educated and have integrity. I take pride in my work and do the best possible job I can do .
