To be associated with a reputable company that would provide me the opportunity to continue building my technical and people skills to the fullest of my abilities.

Authorized to work in the US for any employer

Work Experience

Yards worker

Cargill - Fort Morgan, CO

April 2018 to May 2019

Drive forklift to pick up trash cans and pellets rockerer boxes dumping them in 30 yard containers . Clean yard by hand picking up trash by hand. Driving skid loader picking up piles of dirt and trash loading them in side dumps. Picking up dead xows inside the pins and cleaning out manuar pots. And other duties when asked

Team Lead

Bach composite Colorado - Fort Lupton, CO

April 2014 to January 2016

Responsibilities

Lay out 6 of 8 nose cone molds with hand crane to start the day trace cut spots cut or let cutter cut. Put jig on mold drill big holes and little holes move forward then put rivets and rubber and washers then use rivet gun to shoot rivets then wait for product to be inspected then move cones to table then put doors on cone and make sure they are properly torqued. Once everything is OK stack cone on pallet. As a lead I needed to make sure my team was there and on time and make sure we scan into our jobs with rout cards.

Accomplishments

I started at the glass cutting table moved to nose cones then moved to team lead and help turn nose cone line around and put it on track.
