Work Experience

Saw Operator

Lapham-hickey Steel - Little Canada, MN

April 2014 to Present

Responsibilities

Cut pulled material to W/O instructions while holding tolerances between 0.010-0.062.

Have also loaded trucks and scanned in material.

Accomplishments

Accomplishments were that I learned many skills while here; including 2 years of crane experience and adding 2 more years of forklift experience.

Skills Used

Skills that were used were measurement skills including tape measure and caliper and daily crane and forklift use (sitdown and stand-up).

Spot Welder

Lake Air Metal Products - Coon Rapids, MN

June 2013 to September 2013

Responsibilities

I spot welded sheet metal ranging from 10-22Ga. Duties would include spot welding, cleaning and setting up the welder.

Accomplishments

Better production and cleaner and safer work area.

Skills Used

Mig and tig welding, spot welding and grinding/fabrication.

Machine Operator

TCR Engineered Components - Brooklyn Center, MN

September 2012 to May 2013

Responsibilities

Machine parts according to customer specifications per blueprint. Tolerance ranging from 0.0005-0.003. Other common duties would include using a forklift to get material etc.

Accomplishments

Learned very basic G code on Haas EC-135, forklift experience and measuring device experience.

Skills Used

Math skills along with common sense to achieve quota or detailed description to as why not. Broken tools, machine down and out of tolerance etc.

Education

High school or equivalent in Metal industry

Anoka Senior High School - Anoka, MN

2007 to 2011

Skills

Crane operation Demag 5T and Kone 15T (2 years), Welding MIG/TIG/Stick (5 years), Machine Operation (4 years), Forklift Operator (2 years)
