Logistics-Shipment Manager-Calibration

Houston, Texas, USA 77024 |(346-554-7224) fphonso@gmail.com

Summary

I have over ten years of experience in supply chain management and international trade compliance. I have a proven track record of developing strategies that enhance performance and efficiency. I am eager to join a company where I can make a positive impact through my skills and expertise.

Skills

Proficient in Microsoft Office, documentation and reporting, customer service, Quality Assurance (QA), Dangerous Goods Shipment by Air (DG), Inventory Management Software (IMS)

Experience

Travel Wifi

Houston, Texas

Logistics director

10/2013 to 12/2024

- Managed and coordinated air, ocean, and ground freight processes, ensuring timely and accurate shipments ensured timely deliveries, and reduced customs import processing from 5-7 to 1-3 days
- Developed and implemented standard operating procedures and Warehouse Management Software (WMS) improved workflow efficiency by 15%.
- As a subject matter expert for imports, exports, and third-country shipments, I scheduled quarterly and annual training certifications to ensure shipments comply with guidelines and regulations for both domestic and international shipments. These regulations are governed by the International Air Transport Association (IATA), the Federal Aviation Administration (FAA), and the International Trade Administration (ITA). As a subject matter expert in imports, exports, and third-country shipments, I scheduled quarterly and annual training certifications to ensure that all shipments comply with both domestic and international guidelines and regulations. These regulations are overseen by the International Air Transport Association (IATA), the Federal Aviation Administration (FAA), and the International Trade Administration (ITA).
- A strong understanding of trade regulations and standards, like the Harmonized System (HS) codes, Harmonized Tariff Schedule (HTS) codes, and Export Control Classification Numbers (ECCNs), is crucial for efficiently classifying products in international trade. Properly classifying goods is essential for ensuring smooth customs clearance and avoiding potential delays or penalties associated with documentation and regulatory issues.
- Acted as primary contact for key accounts, quickly resolving issues related to customs, transfer of goods, product warranties, e-commerce, and Couriers.
- Collaborated with other department managers in bi-weekly meetings to review goals, and adjust procedures accordingly to meet or exceed company standards.
- Processed daily and monthly summary reports to regulate workflow and inventory accountability, maintained an accuracy rating of 97 % or higher ensuring customers receive the right product on time
- Collaborated with the project managers to source and purchase goods and services, soliciting vendors to negotiate prices and ensuring the delivery of products at the lowest cost.
