Professional Summary

I've been working since I was 14 years old. I started working with my dad at his small construction family-owned site and went on from there to working as a line cook at chipotle for a couple of years and so on. I'm a hard worker, I'm reliable, I'm great with my hands. I get the job done and I take my work serious. I'm a team player; I've also done package handling for a few years as well. I am looking for something long term where there's room for growth.

Work Experience
