#### Responsibilities

Make sure that my Team did quality work, and successfully completed assignments on time. Encouraged the team to try there hardest at all times no matter what.

#### Accomplishments

No matter what my team always completed there assignments on time. I helped my manager make sure that whatever opportunity's we are given we put our all into it even if it gets difficult. Because of my manager and I, including our great team we have won many awards because of our great efforts

#### Skills Used

Important one is Confidence. Because you have to have confidence in your self including your team mates. Another one is Delegating. If your not good at delegating then task wont get done properly. You also have to be positive no matter what. Even if things are looking to good or going the right way. Being positive helps the team mates and the work environment. I had to be a good leader. Leadership was very important, it helped the team accomplish things that others thought were too difficult.

### **General Laborer**
