Work Experience

Quality Control Inspector

SORENSEN ENGINEERING - Yucaipa, CA

February 2019 to September 2019

Performed hourly visual and dimensional inspections on electrical parts and components. Used a variety of measuring tools and equipment (Optical comparator, tesa, force gauge, drop gauge, micrometer) to ensure all parts were to spec according to blueprint/drawing. Created the proper documentation/reports in cases of non conformance and/or defects. Implemented the proper course of action in cases of defects or rejected parts. Collected/saved data to the proper software or file in order to keep all records and documents current and traceable.

Final Inspection (back up)

Hartwell Corporation - Rancho Cucamonga, CA

June 2015 to December 2018

Served in a dual function as assembler/final inspector. Followed a quality control plan and blueprint in order to properly inspect products. Used various measuring tools (calipers, height gauge, depth gauge, drop gauge, micrometer, comparator) in order to verify that parts had the correct dimensions and were within tolerance. Performed visual inspections on parts/finished products and made sure that adequate corrective measures were implemented in cases of defects/noncompliance. Entered data on to data collection software and Excel spreadsheets in order to maintain traceable records in case of audits.

Assembler A

Hartwell Corporation - Rancho Cucamonga, CA

January 2008 to December 2018

Aerospace (mechanical) Assembly. Followed step by step written instructions on a router in order to complete task. Blueprint interpretation to ensure proper assembly. Used various hand tools and measuring gauges in order to check dimensions, offsets and tolerances. Performed load tests on various pressure release latches.

Education

High school

Century High School - Santa Ana, CA

September 2001 to June 2005

Skills

Blueprint Reading (10+ years), Measuring tools (10+ years), Quality Control (4 years), Inspection (4 years)
