Work Experience

Brake Press Operator

Tennant Company - Golden Valley, MN

October 2017 to Present

Sets up and operates Cincinnati CNC press brakes, CNC Mazak, Trumpf and/or Amada lasers.

Runs Manual sheet metal machines.

Operates in a team environment to achieve department goals in productivity, safety, 5s and continuous improvement.

Operates additional machines or process steps internal to primary to machine cycle times.

Performs cutting and/or shaping metal from raw form into usable parts for Assembly or Aftermarket needs.

Process is semi-repetitive utilizing machinery, tooling, and fixtures for set up, and requiring some minor troubleshooting and adjustment to complete assigned tasks.

Utilizes equipment and measurement tools to drive part accuracy within print tolerances and minimize Quality Notifications and Scrap.

Understands and participates in continuous improvement activities.

Performs other duties as assigned
