Experience

Lathe machine operator

Hach

December, 2020 — August, 2021 (8 months)

Cnc set up machinist, 3 axis live tooling.

Cnc mill operator

Weiser engineering

September, 2020 — December, 2020 (3 months)

Responsibilities include the operations and setup of Haas cnc machining centers between 3,4 and 5 axis mills. Lap, deburr and organize parts, filling out work orders and staging parts for shipping.

Filling in as an alternate on the mazak cnc lathes when the main operators are out.

Checking parts quality with calipers, micrometers, optical compariters and the cmm. Making adjustments for tool wear as necessary.

Waterjet operator/section lead project finishing

Rocky mountain waterjet

September, 2019 — September, 2020 (1 year)

Temp hire, promoted to lead finisher pay raised from \$14/hr to \$17 and also cross trained on the waterjet operations. While there I took over manual milling operations, occasional lathe work for company needs and worked in all other finishing functions.

Took over the role of lead finisher, in that new position all previous responsibilities remained but I then also reviewed applications, conducted interviews, worked with new hires and trained them on finishing functions, gradually assigning new responsibilities according to the employees aptitude and background. Also conducted reviews with the general manager. Oversaw shipping operations, coordinated project prioritization and tasking.

Plumber

State of Colorado

December, 2015 — July, 2017 (1 year 7 months)

Diagnose and repair plumbing issues both on building infrastructure and in bathroom settings.

Education

Pueblo community college

Precision machining technology 1, January, 2018

Certificates in bench work, manual mill and lathe operations. Also certified in cnc machining on Haas vmcs and 3 axis lathes.

Colorado mountain college

Certification, January, 2017

Small business/entrepreneurship certified course where I had a 2.99 gpa and did the best in business statistics.

Certificates and Licenses

Valid Driver's License
