## EXPERIENCE

Carpenter Apprentice, Self Employed Web, March 2020-December 2022  
Littleton, CO

- Maintained clean and organized workplace to optimize performance, efficiency and safety.
- Fashioned frameworks or props using hand tools and wood screws, nails or glue.
- Took accurate measurements to calculate size and amount of materials needed for project completion.
- Covered subfloors with building paper and lay hardwood or parquet floors by nailing to subfloor or cementing to mastic base.
- Cut materials on job site to prepare for installation.
- Cleaned job site after work completion and disposed of debris in proper containers.
- Consistently constructed square and level projects.
- Anchored and braced forms and other structures in place using nails, bolts, anchor rods, steel cables, planks, wedges and timbers.
- Followed OSHA and corporate safety regulations and procedures.
- Studied blueprints or building plans to prepare layout and materials required.
- Utilized various tools, equipment, materials and forming systems to complete construction tasks.
- Bore boltholes in wood, masonry or concrete using electric or pneumatic drill.
- Worked independently on projects and tasks within carpentry team.
- Communicated with teammates and supervisors frequently to understand requirements and complete projects on time.
- Completed hands-on training with skilled carpenters, resulting in woodwork proficiency with equipment.
- Obtained strong understanding of residential and commercial building codes.
- Installed windows, flooring or trim using hand or power tools.
- Performed various carpentry duties, including both rough and finish carpentry.

- Used various carpenter's hand tools, portable power tools and standard measuring instruments.
- Conducted inspections, diagnosed problems, took measurements and made necessary adjustments to complete projects according to specifications.
- Cut timber, panels and other wooden materials according to measured dimensions.
- Positioned and installed floor joists, trusses and rafters.
- Measured, cut and installed staircase spindles.

#### Machine Operator, PinnPACK, August 2016-February 2018

##### Oxnard, CA

- Established and adjusted feed rates and cutting parameters to keep operations in line with production demands.
- Completed written reports of problems and necessary repairs to forward to management and maintenance personnel.
- Looked through work orders to determine type and quantity of materials needed for each production batch.
- Used hand trucks and forklifts to unload, load and transport items.
- Prepared machine for production processes by equipping with required tools and parts.
- Detected work-piece defects and machine malfunctions, maintaining apparatus to prevent future issues.
- Organized pallets and secured materials with plastic wrap to prepare for movement to skids.
- Calibrated machines to adhere to quality standards and maintain required productivity levels.
- Produced quality products by palletizing, packaging and assembling finished items.
- Conducted preventable maintenance on process line and quickly resolved production problems to minimize downtime.
- Maintained assigned equipment and performed daily inspections to increase equipment longevity and cut costs.
- Operated forklift to place finished products on skids and transport to warehouse.
- Monitored production line, watching for pile-ups or jams.

#### General Laborer, Ely Jr's Pumping, March 2013-November 2015

##### Oxnard, CA

- Completed variety of physical labor tasks.
- Met company and OSHA safety guidelines for work site operations to minimize worker risk.
- Used picks and shovels to dig, spread and level dirt and gravel.
- Performed repetitive assembly tasks with hand and power tools and automated equipment.
- Performed physical activities requiring heavy lifting, walking and standing for long periods of time.
