I am looking for a position in a team-oriented environment that will challenge me and allow me to learn new skills and abilities while putting to use the varied skills I already possess.

Work Experience

Quality Control Inspector

3D SYSTEMS - Littleton, CO
June 2021 to October 2022

- Performed visual and dimensional receiving, in-process and final inspection on metal and plastic 3D printed aerospace and patient-specific medical device parts.
- Used various calibrated tools (calipers, micrometers, drop gauges, pin gauges, feeler gauges) for inspection.
- Reviewed production paperwork, device history records, and paperwork sent to physicians with patient-specific medical devices for accuracy and completeness.
- Quarantined nonconforming parts and completed NCR's and requests for rework. Re-inspected parts after rework.
- Participated in gauge R&R's.
- Trained other employees in all aspects of job.

Quality Assurance Inspector II

ROSEMONT DP FLOW - Boulder, CO
November 2012 to March 2021

- Performed receiving, in-process and final inspection on all product lines using various calibrated tools (calipers, micrometers, optical comparator, CMM).
- Managed calibration system: responsible for calibration of all calibrated tools in the company through outside contractor or performing calibrations myself; managed all calibration records. Wrote work instructions for calibration system. Trained other employees in calibration.
- Performed positive material identification using Niton PMI XRF gun on various materials.
- Prepared final inspection document packages and material certifications, reviewed certification materials from suppliers for accuracy and completeness.
- Performed non-destructive weld testing (dye penetrant) and visual weld inspections. Reviewed and verified results of weld x-ray testing for acceptance and accuracy.
- Only QA team member on 2 nd shift.

Receiving Inspector/material Handler

ON-CORE MANUFACTURING - Longmont, CO
May 2010 to November 2012

- Inspected all printed circuit boards and parts when received, in accordance with engineering prints/documentation.
- Set up and maintained both paper and electronic inspection files.

- Segregated all discrepant/non-conforming material and maintained those records. Assisted in resolving NCM's.
- Pulled parts from stockroom for production kits, transacted all material movements in business system software.
- Audited kits for correctness and resolved any discrepancies.
- Researched/resolved inventory discrepancies.

Education

Associate in Science (AS) - did not complete in Medical Technology

ARAPAHOE COMMUNITY COLLEGE - Littleton, CO
