

**ANTHONY BELTRAN**  
**Aerospace Technician**

**Summary:**

5+ years of experience as a CNC technician with hands on experience in composites, sheet metal and tube bending within the aerospace industry.

**Skills:**

Composites  
Schematics  
Vacuum bagging  
Hand tools  
Power tools  
Saws  
Assembly

Layup  
Sanding  
Oven Operation  
Resins  
Labeling  
Documentation  
Quality

Inspection  
Tube Bending  
CNC  
Forklift Certified  
MS Office

**Employment History:****HITCO CARBON COMPOSITES - AEROSPACE****01/2014 - Current****Composite Technician/Operations Technician**

- Edge seal shear ties, spirit beams, khi beams, j beams these are all parts that go inside an airplane.
- Composite layup work provided using engineering schematics and work order instructions.
- ID parts to make sure they're ready to be shipped to customer, also mark the parts with a permanent ID with the ink jet machine.
- Provide composite layups (wet layup)
- Vacuum bagging process to allow curing in autoclave/oven for a 6hr period.
- When cured remove parts, sand where resin was applied.
- Rework any parts that may have a defect - rework consists of sanding the parts defective area only, then applying a resin, then put back in oven/auto-clave to re-cure new resins.
- Provide composite structure assembly with final product.

**VANCE AND HINES - SANTE FE SPRINGS, CA****07/2011 - 05/2013****Tube Bender CNC Operator**

- Computer Numeric Control, Computer-Controlled Machine Tool Operators, Metal and Plastic
- Bending Tubes according to the work orders, tubes are bent at different lengths range from 11 inches to 58 inches, other job duties are COLD SAW, cutting the bent tubes to desired lengths, also operated 50 ton press that stamps logo on tubes.
- Also operated the CNC Tube cutter machine which cut tubes to be bent on the bender sizes range 11 inches to 58 inches in lengths, and 2/1/2 up to 3/ 3/4 in diameter.

**ORANGE COUNTY CHEMICAL SUPPLY - SANTE FE SPRINGS, CA****04/2008 - 08/2010****Chemical Equipment Operators and Tenders****LOADER / UNLOADER**

- Forklift driver, putting caps on gallons packaging the bottles to be shipped to vendors.

**SHAW DIVERSIFIED - SANTE FE SPRINGS, CA****05/2006 - 08/2009****INDUSTRIAL FORKLIFT OPERATOR, Industrial Truck and Tractor Operators**

- Pulled orders and put rolls of carpet racks in production finishing line.
- Operate gas or electric forklift with 12'ft boom and standard fork.

**Education:**

High School Diploma
