

ANTHONY M. MCCLURE

(435) 621-4337 | 81.onp1524@gmail.com

OBJECTIVE

Dedicated and results-driven Foreman with extensive experience in management, seeking to leverage expertise in safety protocols, time management, and team building to enhance operational efficiency and ensure project success. Committed to meeting and exceeding company goals by fostering a collaborative work environment, implementing best practices in safety, and optimizing workflow processes. Eager to contribute strong leadership skills and a proactive approach to support organizational objectives and promote a culture of excellence.

EXPERIENCE

Anschutz Exploration Corporation

Production Foreman/ Facility Construction Supervisor | September 2019- February 2025

- Effectively managed a team of over 10 employees, ensuring high performance and productivity across all operations.
- Managed the construction and installation of oilfield facilities, pipelines, and infrastructure.
- Oversaw contractors, ensured regulatory compliance, and optimized project timelines and budgets.
- Conducted site inspections, enforced HSE standards, and coordinated with engineering and operations teams.
- Managed daily oil and gas production operations, ensuring maximum efficiency and compliance with regulatory requirements.
- Supervised field personnel, scheduled maintenance activities, and coordinated with engineering teams to optimize well performance.
- Analyzed production data, identified trends, and implemented strategies to enhance output and reduce downtime.
- Ensured proper function of surface equipment, separators, pumps, and other production infrastructure.
- Led safety and environmental initiatives, conducted risk assessments, and enforced adherence to company policies and industry regulations.

Gas Lift Compression Experience

- Operated and maintained gas lift compression systems to optimize oil and gas production.
- Monitored and adjusted gas injection rates to enhance well performance and maximize artificial lift efficiency.
 - Conducted routine inspections and troubleshooting of compressors, valves, and pipelines to ensure safe and efficient operations.
 - Coordinated with production engineers and field personnel to diagnose well performance issues and implement gas lift adjustments.
 - Ensured compliance with safety and environmental regulations, performing preventative maintenance to minimize downtime and equipment failure.

- Maintained detailed records of gas injection pressures, flow rates, and compressor performance for reporting and optimization purposes.

Oasis Petroleum

Lease Operator | February 2017- September 2019

Production Monitoring & Optimization

- Inspect and monitor oil and gas wells, tanks, pipelines, and separators to ensure optimal production.
- Record and analyze daily production data, including fluid levels, pressures, and flow rates.
- Identify and troubleshoot production issues to minimize downtime and maximize output.

Equipment Operation & Maintenance

- Operate and maintain pumps, compressors, separators, and other production equipment.
- Perform minor repairs and preventative maintenance to ensure efficient operation.
- Coordinate with maintenance crews and third-party contractors for major repairs.

Regulatory Compliance & Safety

- Ensure compliance with company policies, state, and federal regulations (OSHA, EPA, API).
- Conduct routine safety inspections and report any hazards or equipment malfunctions.
- Follow environmental guidelines for handling and disposing of production fluids and waste.

Lease Management & Reporting

- Maintain accurate production records and submit daily reports.
- Monitor stock tanks and coordinate oil and water hauling operations.
- Ensure lease roads, gates, and site equipment are properly maintained.

Emerald Oil

Lease operator | 2015 – 2017

- Operated surface equipment to maximize production efficiency and output.
- Acquired extensive knowledge in independent decision-making, effectively managing facility operations to ensure optimal performance.

EDUCATION

Ben Lomond High School | High School Diploma | Graduated 1998
