I have lived in Colorado Springs, Colorado since 2004. My dad served in the Army for 22 years. I am currently pursuing my Mechanical Engineering Associates degree at Pikes Peak State College (PPCC). I have been attending PPCC since August of 2019 and was originally going for my Associates of Science Degree for General Education before I switched to Mechanical Engineering in the Fall of 2023. Once I graduate in the Fall of 2026, I will have my Associates of Mechanical Engineering, Associates of Science, and a Certificate of SolidWorks. If I stay in Colorado, I plan on transferring to Colorado State University of Fort Collins to get my Bachelors or Masters in Engineering and earn a Minor in Music Performance/Education. I currently also am on a bowling League on Wednesday nights at Harmony Bowling Center and a pool/billiards league on Thursday nights.
