Objective

To demonstrate applicant is qualified for new position as Assembly Technician through various skills, abilities and 35 years experience in electrical and mechanical assembly with 12 years as leadman.

April 2010 - PRESENT

Amada Miyachi America - *Electromechanical Assembler Senior*

- Assemble cables, harnesses assemblies, subassemblies and built test boards for new and old cable assemblies. Helped with maintenance on machinery. When some machines were down did F/D to find and fix the problem. Build modifications for engineering, submitted changes to drawings . Assist coworkers with assembly, schematics and blueprint questions, when needed.

February 2007-March 2009

JDL Pump Systems, Arcadia Ca.. - *Lead/ Shop Foreman*

- Delegate duties, read blue prints, measure, cut steel, help set up for welder, layout drilling, tapping, paint, assemble booster pumps, help control panel room, set up for booster test, and maintain stock for fabrication shop.

November 1997 - December 2006

Engine Electronics Inc., Pomona Ca., - *Lead*

- Maintained scheduled, delegated responsibilities, submit requests for supplies, fabricated methods to increase productivity, run HAAS CNC lathe, mix compounds using weight scale, run and program ovens, performed maintenance on small machines, bonding , spin balance, used depth gage, micrometers, height gage, I/D gage, dial indicators, and vernier calipers.

September 1995 - September 1997

MTI Technology Inc., Anaheim Ca., - *Mechanical Assembler*

- Assembled custom storage devices, read and followed documented procedures and drawings, performed tests, performed all packing functions necessary, maintained inventory, and submitted engineering change requests when problems were discovered.

July 1979- December 1995

Hughes Missile Sys/ General Dynamics, Pomona, Ca., -*Manufacturing Leadman /*

R & D Mechanic

- Research and Development: performed engineering changes, on production hardware along with performing prototype builds and template designing. As leadman performed duties of supervisor in supervisor's absence, maintain schedules and delegate responsibilities, collaborated with engineering and Q C in resolving problems, was responsible for the disposition of rework planning, assembled mechanical subassemblies, precision gearbox assemblies, performed electrical and functional tests.

Education

BALDWIN PARK HIGH , Baldwin Park, - diploma

AUTOMOTIVE TECHNOLOGY (Nissan/ ROP)

RESIDENTIAL / INDUSTRIAL ELECTRICIAN (B.P. Adult Ed.)

Awards

Received Excellence Award for outstanding workmanship and efficiency in addition to, awards for cost cutting ideas while at General Dynamics.
