Work Experience

Forklift Operator

Procter & Gamble - Vandalia, OH

June 2017 to October 2017

Dock: Shipping and receiving

- > Scanning ALL pallets to and from the racks
- > Kitting Area: racked all the kitted materials and prepared them ahead of time per job orders.
- > Wrappers: Down stack the fully wrapped pallets each line was producing and take it to the transfer area where the other company DHL would take to their side and ship to customer
- > Rack Audits: Had weekly rack audits where each employee was assigned a column and go scan each pallet to verify and make sure it was scanned in the right location.
- > Always could rely on me for voluntary/involuntary over-time except the couple times due to personal reasons.
- > Trained on ALL expected lifts: High mast, Low Mast, Buggie/Rabbit, Cherry Picker (license/certification available at request)
- > Would stock the A or B cell lines of chep pallets, materials and feeder per weekly duties and placements per supervisors orders.
- > All production leaders complimented my work and dedication. Never had to wait for anything to run the line.

Production Worker

Takumi Loader - Huber Heights, OH

December 2016 to February 2017

Loaded parts

- > Loaded racks onto the paint line
- > Unloaded racks off the paint line
- > Occasionally unloaded parts off racks for shipping
- > Quota always made 99% of the time

Packer/Cutting

Huber Heights, OH

December 2014 to April 2015

Packed all paper and business card

- > Eventually got put in Booking where special orders were done in a quick and timely fashion due to my quick and steady work performance.
- > All items were checked for quality before packing and sent to shipping.

Machine Operator

Stabilizer - Sparta, TN

September 2014 to December 2014

Ran all polk yokes at the beginning of the shift.

- Weighed all fluids that the machine injects on the parts before machine started.
- Ran the stabilizer and answered all alarms (around 60) to maintain shift productions daily.
- Reload parts barings to keep machine continuously running.
- Loaded parts and ran then to pack and send off to be shipped accordingly.

Machine Operator

Sparta, TN

July 2014 to September 2014

Set up and ran machine for production on semi truck parts.

- Did hourly quality check and calibrated to check measurements as well.
- Cleaned up our machine and area when shift was over Took A 7 year break from work to be a mother to my 2 beautiful kids.

Quality Inspector

MPI - Greeneville, TN

January 2007 to April 2007

Quality

- 200% Quality Check
- Checked all parts that came through and ran shipping
- Also drove Forklift and certified as well
- Mandatory Overtime

rubber mold operator

Powder Coater & STI - Midway, TN

June 2006 to January 2007

Coated rubber hoses and ran them through an oven

- I was also a fill in to run the STI rubber mold machine
- ALWAYS made over production wherever I was placed
- 30 minutes clean up at the end of my shift

Education

diploma

Northridge High School - Dayton, OH
