Work Experience

TIG Welder/Fabricator

Mile Hi Distilling - Wheat Ridge, CO

December 2021 to Present

Responsible for tig welding stainless steel and copper components to be used for distilling processes. Also responsible for cutting, drilling and fitting up materials to be welded using band saws, a mill, pneumatic die grinders, and belt sanders. Every part made must be buffed and polished before considered a finished product.

Race Car Mechanic

Ignite Performance - Arvada, CO

March 2017 to December 2021

Responsible for maintaining and building vintage racing cars and street cars. Maintenance included everything from simple oil changes to full engine rebuilds to fabricating roll cages and other custom components such as exhaust manifolds.
