Then cleaning up quickly and efficiently. And putting away all tools. Ladders brooms & shovels etc.

### **Swine Technician**

Iowa Select Farms - Iowa Falls, IA - 2012-05 - 2016-06

Swine technician i assisted in the raising of hogs for meat production. I was a team member caring for and administering piglets to assure optimum productivity. As this person i assisted where needed working with animals and light facility repair and maintenance. I tended to baby piglets. Nursery pigs-( Age 25-30 days old) When they came to our nursery barn from the farrowing barns. Direct contact with the animals would occur, so maintaining good stockmanship & bio-security practice must be understood and practiced at all times. Daily focus on animal welfare. Know reporting procedures when or if an incident occurs. Care and management of animals to ensure that: animals are propely fed, water is available, and observation of all animals daily and ensuring sick animals are properly treated. Overall animal conditions are evaluated & maintained. Follow proper steps for timely euthanasia and be able to identify when it is needed. Care and mangement of facilities. Maintain accurate records. Procure, administer and dispense medications and vaccinations according to protocols.
