Reliable worker seeking a great team to be a part of. Maintain a high level of integrity and responsibility, attention to detail and ability to put out 'right the first time' work. High energy and excellent communications skills.

Experience

Production ~ March 4, 2019 - Current Date

Boulder Botanical & Bioscience Labs ~ 1150 Catamount Drive Golden, CO 80403

BBB is a fast growing CBD company that takes pride in ever product we produce. Keeping the labs and equipment spotless and working properly. The production team is responsible for many things. Such as batching product all the way down to the last step of putting product into its specific display packaging. It is our job to make sure each product has the exact amount of each ingredient so potency is spot on. Working with CBD it is very important potency is accurate. Another major part of the job is making sure all paperwork is complete and accurate. Working at BBB takes a lot of patience and is very tedious but is a great feeling seeing the final product ready to hit the shelf in stores.

Machine Operator/Forklift Operator ~ September 11, 2017 - February 28, 2019

Gates & Sons Inc. ~ 90 S Fox St Denver, CO 80223 ~ (303)744-6185

- Forklift Certified

My responsibility as a machine operator are to keep my machine running and product moving. The machine I run bends and welds wire (cam locks and anchor locks). On a daily, I would have to make adjustment to machine to assure proper welds to different sized wire. Keeping machine in good condition, making sure all safeguards are working in order and welding tips are making safe and clean welds. Forklifting is a little bit different, I had to be ahead of everyone and their machines. I was responsible for making sure all machines had wire to weld with correct sizes and had correct orders delivered to select stations.

Skills

Taking pride in the work I do is very important to me! My main goal when at a job is to keep customers happy and wanting to come back for another visit. I love being able to assist clients and help them get the proper service and information they need. I am very clean and organized which helps make my work days run smooth even when things get hectic. Working to meet deadlines and putting out quality work is something I strive for. If I am a reflection of a company I want to make sure I am nothing less than excellent. I always want to grow and learn new things about my job whether its new techniques or different areas of the company. Even if my roll will not change I do like to understand all areas of a company. Working alone or with a team I like to encourage myself or others to be better than we were. There is always room for improvement and I am always willing to take advice or criticisms to better my skills.

Education

Arvada West High School

August 2007-May 2011
