Authorized to work in the US for any employer

WORK EXPERIENCE

2nd Operations

Climatech - Hopkins, MN - April 2013 to Present

Responsibilities

We are an injection molding comp. In 2nd operations we cut parts to size, drill, inspect and package quality parts. We do a lot of work for windows and doors.

Accomplishments

I had never worked with a saw before, so that was all new to me, setting the saws and reading rulers is part of it.

Skills Used

inspection, using rulers, calipers, sizing parts, doing quality work for the customer. Working at times as a team on a job. Have learned the machines well enough to train new employees and temps .

Molder Operator

Thermotech - Hopkins, MN - April 1997 to August 2010

Responsibilities

Running injection molding machines, packing parts. Hourly inspection of parts, troubleshooting machine if problems occur. In later years training new employees. Some quality inspection work.

Accomplishments

Learning the machines, quality of the parts. Running machines, and troubleshooting problems.

Skills Used

Having a good eye to spot bad parts, using calipers and gage pins to check parts hourly. Training new employees to properly check parts and do paperwork. Enjoy working with others, and training new people.

EDUCATION

Fairmont High School - Fairmont, MN

1976 to 1979

SKILLS

Manufacturing (10+ years)

ADDITIONAL INFORMATION

Enjoy learning new things, and working with others. Easy to work with !!!
