Summary

Proven Pharmacist with over twenty years of insightful experience in providing consultation to patients, physicians and nursing staff. Articulate communicator of relevant therapeutic information with a fervent commitment to delivering excellent customer service.

Core Competencies:

- Extensive knowledge of pharmacology, pharmacokinetics and therapeutics
- Comprehensive grasp of drug interaction considerations
- Determination to perform tasks quickly, efficiently and accurately
- Capacity to take decisive actions in demanding situations
- Ability to perform tasks with minimal supervision
- Talent to speak and write with credibility, persuasiveness and diplomacy
- Ability to translate complicated concepts into simple, understandable terms
- Comprehensive experience in EHR, RPMS, ScriptPro and Pyxis

Performance highlights:

- Provided pharmaceutical information to physicians and nursing staff
- Evaluated patient profiles, assessed compliance and suggested adjustments to achieve desired therapeutic response
- Detected potential drug interaction and allergy issues
- Analyzed laboratory data to ensure proper drug dosing and regimen
- Interpreted prescriptions and entered the appropriate data into the data base
- Supervised the work of pharmacy technicians in the preparation, labeling and delivery of medications to ensure accuracy
- Instructed patients in the proper use of prescribed drugs and OTC medications to optimize therapeutic benefit
- Resolved formulary limitations, prior authorization requirements and other payment obstacles with insurance companies and government payers
- Confirmed compliance with state and federal laws and regulations pertaining to controlled substances and the maintenance of required records
- Interviewed and hired new employees and evaluated staff performance
- Directed the training of pharmacy interns and technicians
